

Vacancy Announcement

DATE: April 2, 2019
TO: All Qualified Applicants
FROM: Human Resources
RE: Aircraft Maintenance Technician
LOCATION: Kotzebue, Alaska
CLOSING DATE: Open Until Filled

This announcement is for an Aircraft Maintenance Technician for Ravn Air Group. This position reports to the Vice President of Maintenance for Ravn Connect and is responsible for repairs and maintenance on assigned aircraft, under supervision or as trained and qualified to perform. The successful candidate will have a valid FAA mechanic certificate with an airframe and powerplant (A&P) rating and one year or more of experience repairing and maintaining aircraft, preferably heavy turboprop.

This is a non-exempt, full time, benefits-eligible position. Position typically works a two-week rotational schedule in Kotzebue, however overtime may be required as dictated by business needs and with management approval.

Minimum Qualifications

- High School Diploma/GED required;
- Hold a current FAA mechanic certificate with both an airframe and powerplant rating;
- Must have a valid Driver's License with a good driving record according to the company's insurance policy;
- Demonstrated mechanical knowledge of Cessna C207, Cessna C208, Beech 1900C, and PA-31 Chieftain aircraft or similar turboprop aircraft is highly desired;
- Must be able to effectively troubleshoot all aircraft systems;
- Ability to read and interpret technical manuals and drawings to perform required maintenance tasks;
- Detail-oriented with the ability to prioritize multiple tasks;
- Good written and verbal communication skills;
- Proficient, or able to become proficient, in all documentation of paperwork using maintenance tracking software program, including material requisitions;
- Requires a strong safety awareness and the ability to adhere to Safety Management Systems (SMS);

- Able to pass a comprehensive background check;
- Comfortable working in an airport environment around odors and sounds typically associated with operating aircraft.

Duties & Responsibilities

- Responsible for repairs and maintenance on assigned aircraft;
- Remove/disassemble parts as required then assemble and install replacement parts and components as needed;
- Assist in troubleshooting of maintenance issues involving aircraft structures, systems and engines;
- Perform modifications per FAA regulations and company General Maintenance Manual (GMM);
- Complete all necessary maintenance records and paperwork as required;
- Ability to read and interpret technical manuals and drawings to perform required maintenance tasks;
- Promote the Company safety culture; reporting all service irregularities immediately to supervisor;
- Other duties as assigned and within the scope of this position.
